

Work at Height Permit Writers (WAHPW01)

This course is aimed at personnel who are required to issue working at height permits to staff or contractors. Each delegate will gain knowledge and skills that will enable them to audit received RAMS and produce a suitable permit to work at height. Delegates will develop a safe system of work including a risk assessment, rescue plan and permit for a given real life scenario during the training session.

All courses will be delivered in English.

Delegates can attend our purpose-built Training Academy in Sheffield or subject to a suitable room being available, it can be delivered in your normal place of work.
